

Dart Harbour

The Future of our Estuary

Dart Harbour

Who are Dart Harbour

We are the stewards of
the harbour.
The ultimate stakeholders
are future generations

Safety

Stakeholders

Stewardship

Staff

Stability

We are developing a Port Masterplan, and now want your views on what you feel the harbour should look like in 2050.

We've put together a detailed description of how the harbour functions now – looking at core users, safety & navigation, environment, community & heritage, infrastructure and stability & staff.

The next stage is to look at where we want to go.

You can read the plan so far and respond to our consultation on our website at www.dartharbour.org/portmasterplan, or come along to one of our workshops – we're planning to hold them in Dartmouth, Dittisham, Stoke Gabriel & Totnes during May.

Dart Harbour

Infrastructure

- Easy access pontoon
- Green Pontoon replaced by Mayor's Avenue
- Refurbishment of K pontoons underway
- Distin moorings purchase

Dart Harbour

Young People Engagement

- Teaching every child in Dartmouth to swim
- Working with other groups to get children on the water
- Facilities for water sports (Swim Zone, Floating slipway, paddle trails)
- Dart Harbour Community Fund
- Work experience, open days, careers days
- Apprenticeships

- Brushwood bundles at 40ft off and Home Reach
- Longmarsh boardwalk
- Sharpham Point dry stone wall
- Saltmarsh boat trips
- Drone & LIDAR surveys

- Moving on from the success of Phoebe, putting together a plan for decarbonisation of the fleet.
- Deliver another electric or hybrid boat during winter 25/26
